

FAASTeam & FSDO-07 presents:

FAASTeam CFI Open Forum

Aviation educators are vital and influential; they are the gateway for those entering pleasure, business, and commercial flying. Instructors advance pilots through a regulated system of certificates and ratings, transitioning pilots to different aircraft and technologies, and ensuring that pilots satisfy FAA, insurance, and flight school or company recurrency requirements. Though the reasons for increased attrition among students and other pilots are many, instructors often represent the first and last lines of defense to motivate pilots to continue in aviation. At this Flight Instructor Forum we will discuss Teaching Stalls: Awareness & Recovery. Join your flight instructor colleagues and make a difference in flight training safety!

Directions: Turn south on the airport entrance road from MD198, just south of MD 32. Take the left turnoff to General Aviation Drive. The classroom is in the first building on your right just before the flagpoles.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
